About Us

RiCOMA The world's leading manufacturer of embroidery equipment and software!

Headquartered in Miami, Florida in the United States and with a production base in Shenzhen, China, RiCOMA is a multinational high-tech enterprise engaged in R&D, manufacturing, sales and service of garment decoration equipment and software.

At RiCOMA, we have A Passion for Excellence in productivity, cutting-edge technology, and reliability, which makes RiCOMA the most preferred source for embroidery equipment and digitizing software. Through years of relentless efforts, we have developed our own core technologies, established a comprehensive production base and built up a highly efficient sales and service network worldwide. Today, RiCOMA is a well-known brand in the garment decoration industry throughout the world.

Our factory is the most advanced state-of-the-art production facility operated with high efficiency in a modern and beautiful environment. We have a professional staff and well-trained work force that reinforces RiCOMA's unique and outstanding corporate culture.

With customers' needs in mind at all times, RiCOMA has been adhering to independent technological innovation and focusing on brand marketing strategy. For more than a decade, we have been committed to research, development, design and production of computerized embroidery machines and software applications. Our research and development team has established strategic alliances and cooperation with partners in the United States, United Kingdom, Germany, Japan, and South Korea.

With the establishment of a strict and comprehensive quality management and control system, each product undergoes a rigorous inspection and testing process. RiCOMA always adheres to the most stringent inspection and quality control throughout the purchase of raw materials, parts processing, production and product packaging. This whole process has guaranteed the high quality of RiCOMA's products. All our products have been approved with international certifications including CE, RoHS, SGS, etc.

Equipped with a strong professional and international sales and service team, RiCOMA has established distribution networks in more than 100 countries and has further helped thousands of customers succeed in their businesses.

Working together with a number of international logistics companies with efficient and convenient means of transport, we

ensure that our products will reach customers in a timely and safe manner.

To better service our customers worldwide, RiCOMA has set up the Global Customer Service Center both in the US and in China, which offers uninterrupted service, 24 hours a day with faster response to customers' needs and feedback. This unparalleled and unprecedented service in the industry allows our customers, wherever they are, to enjoy RiCOMA's products with ease and confidence.

We appreciate the trust and support that our valued customers have placed in our company and will continue to work hard to bring our customers the competitive advantage they deserve and expect from us. Only when our customers succeed with our products and services, can we succeed in our business! This is what we believe in and what we strive to achieve each and every day.

RiCOMA®
A Passion For Excellence

LEADING THE WAY WITH INNOVATIVE TECHNOLOGY

RiCOMA's adherence to "A passion for excellence" business philosophy has allowed customers and consumers around the world to experience the beauty of embroidery and has won the respect of industry peers. For five consecutive years, RiCOMA has been honored one of the 75 most powerful companies in the garment decoration industry by Stitches Magazine, the most authoritative industry publication in the United States, and has quickly become a well-known brand across the world.

EM Series 10-NEEDLE HOME EMBROIDERY MACHINE

WITH 7" HD TRUE COLOR TOUCH SCREEN SYSTEM

EM Series 10-NEEDLE HOME EMBROIDERY MACHINE

RICOMA
A Passion For Excellence

EM-1010

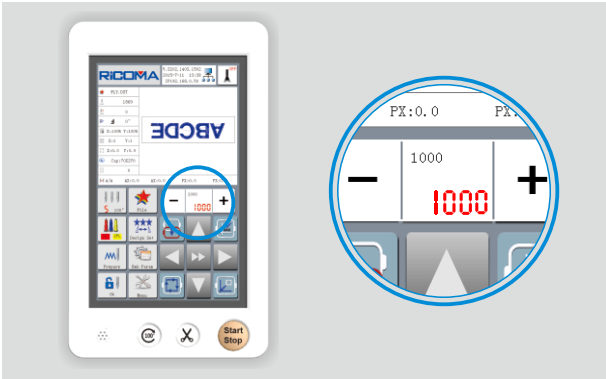

MAIN FEATURES

- ▼ Single head machine with 10 needles to meet all of your embroidery needs
- ▼ Sleek and stylish design with 7" HD true color LCD touch screen
- ▼ User-friendly interface with easy-to-understand icons and operation
- ▼ Multiple languages available, including English, Chinese, Spanish, Portuguese, Turkish, Dutch, French, German, Thai, Arabic, etc
- ▼ Servo motor enables machine to be more durable and reliable
- ▼ Patented intelligent thread break detection system
- ▼ Linear guide rail makes machine more reliable
- ▼ Low power consumption at 80W
- ▼ Automatic color change
- ▼ Automatic thread trimming
- ▼ Single button with different color display for START and STOP
- ▼ On-board lettering
- ▼ One-step appliqué
- ▼ One-step tracing
- ▼ Machine reads multiple design formats, such as DST and DSB
- ▼ Dual CPUs enable design input/output while machine is in operation
- ▼ Pre-set hoops to avoid hitting hoop frames
- ▼ Position of design within hoop is displayed on screen while in operation
- ▼ Design automatically rotates 180° when switching from cap to flat (or vice versa) embroidery mode
- ▼ Recessed USB port to better protect USB flash drive
- ▼ Automatic data restoration when machine is powered off and later powered back on
- ▼ While working, the embroidered part will be displayed in color with the unfinished parts in shadows
- ▼ Digital ON / OFF switch for built-in LED light
- ▼ Screensavers available
- ▼ Ethernet or wireless connection makes it easy for design management on PC
- ▼ Network capability
- ▼ Environmentally-friendly heavy duty carton package

EM Series 10-NEEDLE HOME EMBROIDERY MACHINE

SPECIFICATIONS

Needle	10
Head	1
Max Speed	1000 SPM
Motor	Main X-Y
	Servo Motor Stepping Motor
Operation Box	Intuitive 7" True Color LCD Touch Screen
Hook	Japanese Koban Hook
Memory Capacity	20,000,000 stitches or 200 designs
Memory Media	USB Memory Stick
Safety Device	Error Code Message
Maximum embroidery area	31x21CM or 12.2"x8.3"
Cap embroidery	220° wide angle cap system
Power	Ac90 - 240V, 50 – 60 Hz self-adaptable
Net Weight	45 KGs or 100 LBs
Shipping weight	60 KGs or 133 LBs
Machine measurement	65Wx58Dx78H CM or 26"Wx23"Dx31"H
Package measurement	71Wx75Dx81H CM or 28"Wx30"Dx32"H

Maximum speed up to 1000 SPM

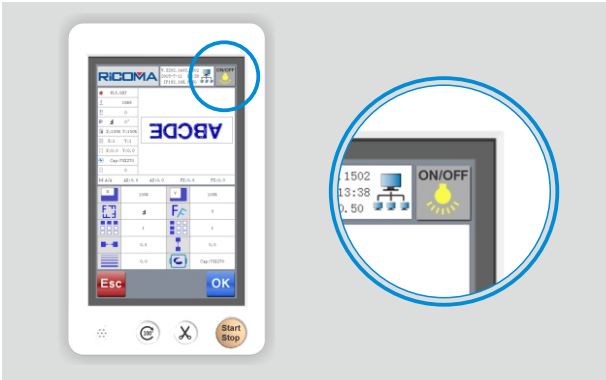

On-board lettering with built-in fonts

One-step appliqué

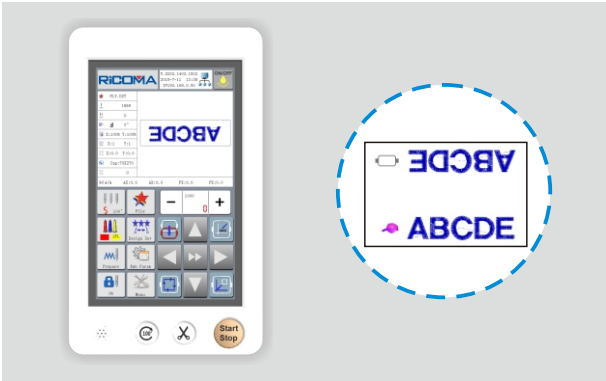

One-step tracing

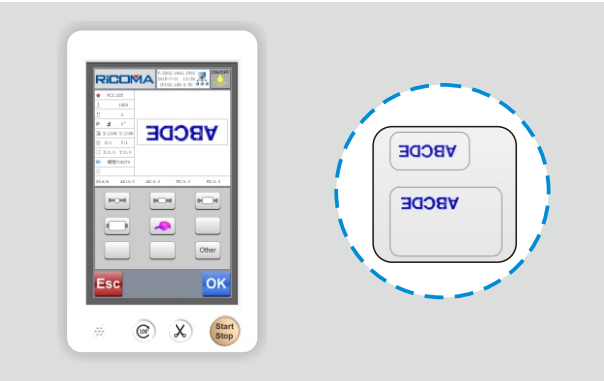

Digital ON/OFF switch for LED light

Single button with different color display for START and STOP

Design automatically rotates 180° when switching from cap to flat (or vice versa) embroidery mode

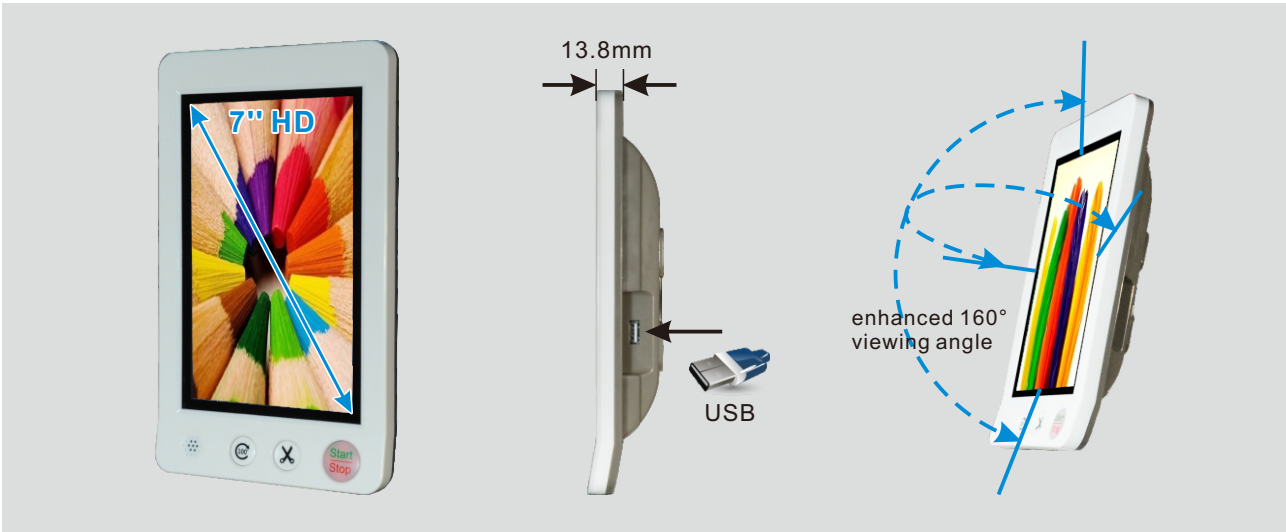

Pre-set hoops to avoid hitting hoops

Retractable Thread Stand

Durable and reliable servo motor

HD LCD display with enhanced 160° viewing angle
Ergonomic and stylish 7" HD true color LCD touch screen panel, only 13.8mm in thickness

Full-spectrum LED lighting
with low energy consumption

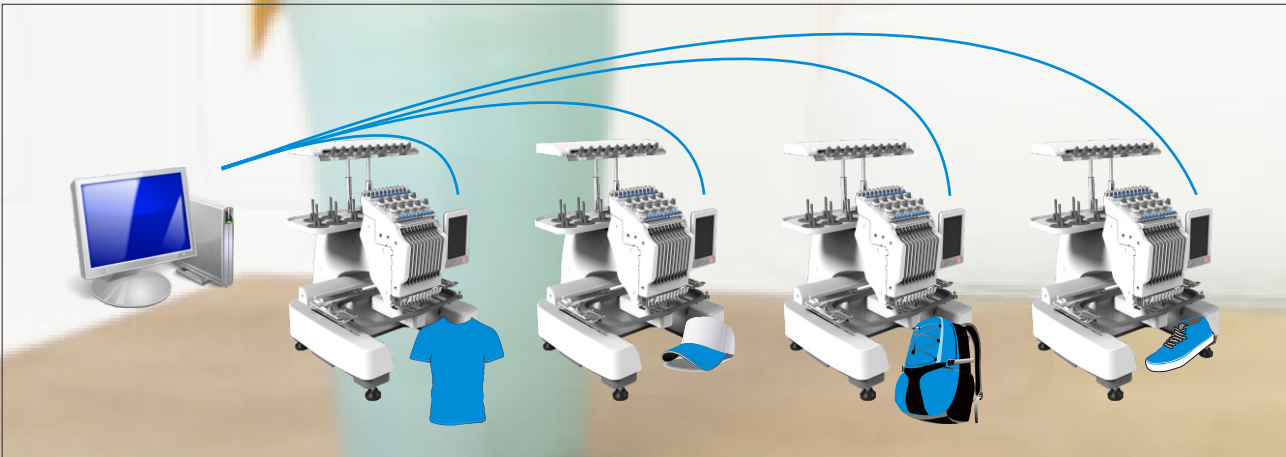

Patented intelligent thread
break detection system

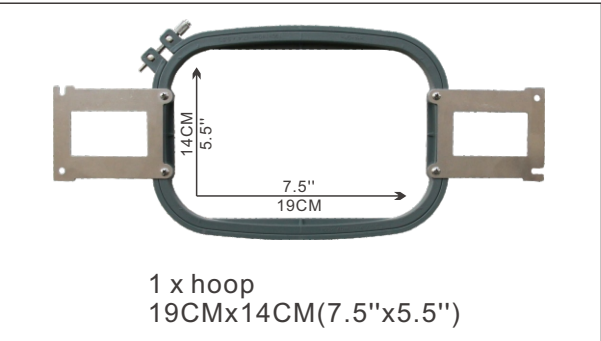

Network Capability Ready

Using advanced network technology, you can connect together as many RiCOMA EM-1010s as you wish to create an extremely flexible production system. Embroider the same design on all of your machines at the same time or different designs on different machines simultaneously.

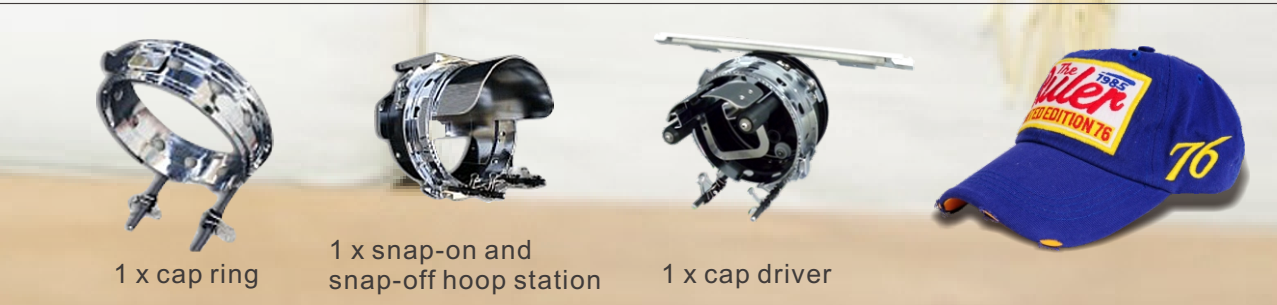

STANDARD CONFIGURATION
